Mission Statement

Our mission is to actively promote and encourage democratic, multi-racial and non-violent decisions in all aspects of our nation's domestic and foreign policy.

We join progressive individuals and organizations across the Cape, and seek to extend this cooperative alliance. By connecting, we learn from each other, help each other, and increase our effectiveness. Awareness, education and non-violent action are the tools we use to better understand and confront our nation's dominant institutions and powers.

We challenge global corporate capital in the promulgation of war, environmental destruction and impoverishment, and seek peace, freedom, justice, democracy, and respect for the rights and security of all people, as well as the earth's living environment.
